

GRANDÉ ROUX ROT SANDRIO

26/12/2014 • 16.3hh • Bay

Rotsandrio is our youngest broodmare and descends from our top mare, Salero. She is purely bred for dressage. Rotsandrio shows a lot of potential for the dressage discipline, and being the first mare produced by Salero, we had no choice but to keep her for breeding purposes. She has a lovely temperament, excellent conformation, beautiful markings and a big stride with floating movement.

Rotsandrio will be going into training with Elena Jankowitz at the end of 2018. We will use her as a donor mare to do embryo transfers.
